

CL Testing Result

This is to certify that the Border collie,

UNSW ID 722

Bordercheck Roxy Lass

Microchip Number '982009101701549

Registration Number 2100155577

owned by Geraldine Kisielnicki

has been tested for the known mutations in the CLN5 gene including the c.619 C>T mutation at the Canine Genetics Lab at UNSW.

The result at position 619 indicates that the animal tested is CLEAR for the CL mutation.

This animal does not have the CL mutation.
